DETAILED ACTION

Allowable Subject Matter

1. Claims 1-27 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record teaches an image forming apparatus having an engine controlling unit and an image processing unit arranged on a single printed circuit board in which a first division and a second division are defined with the engine controlling unit being arranged in the first division and the image processing unit being arranged in the second division, wherein the circuit element in the second division is shared by the engine controlling unit and the image processing unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Morris-jones and Kimura et al disclose other examples of engine controlling device used in image forming apparatus.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang Ngo whose telephone number is (571) 272-2138. The examiner can normally be reached on 6:00am - 2:30pm.
